High-Attendance Environments

M260

High Reliability 2D and Magstripe ID Card Reader for Age/ID Verification

STANDARD FEATURES

- High Performance Barcode Reader
- Magnetic Stripe Reader
- Small Footprint / Easy Operation
- Reads AAMVA Standard Cards
- Powered only via USB port
- Mountable in Kiosk Environments
- Easy operation to register Customer

The Model M260 incorporates a magnetic stripe reader with advanced 2D barcode reading technology for government-issued ID cards. It's a reliable and affordable business solution for age verification and transaction processing.

Data is transferred to the host device via a standard USB interface or RS-232 serial port. In addition to the standard side access cable interface connector, the Model M260 also uses a bottom-mounted interface connector which makes it easily mountable for kiosk and vehicle mounting situations.

Ideal for:

Governments

Age Verification

Law Enforcement

Patient Check-in

Casinos & Gaming

Bar & Night Club Access Control

Hotels
